

WORKSHEET

Group Presentation on MLA Style

Group member names: _____

Date of presentation: _____

Assigned text: _____

For this presentation, your group is expected to guide the class through citing a source in *MLA* style. Groups will provide a five-minute in-class lesson on how to navigate the eighth edition of the *MLA Handbook* and will demonstrate how to create a works-cited-list entry and in-text citation for their assigned text. For this lesson, you should do the following:

1. Explain to your classmates how you used the *MLA Handbook* to find the information you needed to cite your source. Provide strong sample in-text citations and a works-cited-list entry. Please consider likely variations on the source that your classmates may be using (e.g., a print or e-book version of a novel).
2. Prepare either a paper handout or a slide show (e.g., *PowerPoint*) that outlines your presentation and offers clear sample citations for your classmates.
3. Prepare a five-point comprehension quiz on the material you cover in your presentation. After finishing your presentation, please distribute the quiz to your classmates and prompt them to complete it. Then collect it and return graded quizzes to the instructor with the form provided.
